

Electrical Contractors Association of British Columbia

2009-2010 NECA Manual of Labour Units

The NECA MLU has long been the standard in the industry and its prominence among other estimating data sources is well documented. Biennially, a panel of estimating experts reviews and revises the data in the MLU. Some of the significant changes include:

- Section 1 Integrated Building Systems** has easier-to-use tables.
- Section 2 Conduit, Raceways, Fittings and Related Items** has an expanded listing of supports and fasteners, and fireproofing material.
- Section 4 Switchboards, MCC's, Panelboards & Power Equipment** contains many new items including a greatly expanded emergency generator and UPS area.
- Section 6 Wiring Devices** includes an expanded listing of devices and cover plates.
- Section 7 Hazardous Systems** now includes new switching and wiring device data.
- NEW FEATURE – Each section of the MLU contains shaded tabs to help quickly locate material items.**

The NECA Manual of Labour Units is \$135.00 (Members) \$270.00 (Non Members) Plus Shipping and Handling.
