Career Objective

My goal is to become a well-rounded Journeyman Electrician.

Highlights of Qualifications

- Extensive experience in working with tools and machines, performing electrical installations, and various wiring methods.
- Strong academic and electrical skills.
- Work well both independently, and within the dynamics of a group.
- Mature, responsible, safe worker.

Relevant Skills and Experience

Trade Skills

Experienced with different wiring methods.

- Worked with non-metallic sheathed cable and BX.
- Experienced with EMT installations.
- Familiar with PVC and rigid metal conduit.

Skilled in using tools, instruments, and technology effectively.

- Installed panel boards, motor control circuits, and conventional devices.
- Inspected and tested electronic circuits for quality control.
- Experienced with DDC cabling, sensors and panel installation.

Experienced reading and interpreting blueprints.

- Designed schematic and wiring diagrams.
- Built circuits from above said diagrams.
- Assembled and soldered electronics from wiring diagrams.

Good problem solving skills.

- Installed heating, power, lighting, and communications circuits.
- Performed troubleshooting in residential and commercial settings.
- Saved space and time in large, busy stockroom setting.

Teamwork Skills

Work well independently, as well as with others.

- Experienced working closely in a team setting, to meet production deadlines.
- Assembled and installed temporary overhead service poles and 120/ 240-volt single-phase residential overhead services.
- Learned importance of group dynamics. Worked in a factory with a large staff.

Possess excellent communication skills, written and verbal.

- Experienced as an on- air personality at two radio stations. I am also computer literate.
- Great listening and comprehension skills. I am a good student.
- Friendly. Customer service skills from working at a store loading dock.

Personal Management Skills

Responsible person. Very safety conscious.

- Developed proper use and care of meters, hand and power tools, pipe threaders and cutters, and safe ladder and scaffold use.
- Skilled in time management. I am able to balance my work and home life.
- Accountable for actions taken. Experienced working in a quality controlled environment.

Adaptable to different situations.

- Committed to learning for life. Willing to learn from my mistakes.
- Constructive response to change. I have worked in busy, ever- changing stockrooms.
- A positive attitude and behavior. I readily accept criticism.

Strong work ethic.

- Dedicated to always putting in a good effort.
- Take the initiative, knowing when to lead or support when necessary.
- Ability to remain calm and open- minded at all times. Worked on fast paced assembly lines.
